Public Area Badge Requirement

To ensure the integrity of the Airport Security Program, in conjunction with enhancing our public areas and the accurate identification of all airport personnel, all companies are reminded of the Public Area Badge Requirement.

Employees working in public spaces in the Domestic and International Terminals (pre-security) must have an Airport-issued ATL badge.

Companies and/or employees violating this directive will result in the loss of access privileges, fines and/or prosecution.

Remember, Security is Everyone’s Business!

The Department of Aviation’s Security Division is responsible for managing an effective Airport Security Program that ensures a safe and secure environment at the world's busiest and most efficient airport while exceeding customers' expectations and complying with applicable regulations, laws and codes.

If you have questions, please contact the Security Division at SecurityID@atl.com.

Thank you for your continued support of the Airport Security Program.
