TSA Screening Requirement for Employees Traveling as Passengers

All employees traveling as passengers are required to access the sterile area through a TSA screening checkpoint. Once screened, employees must remain in the sterile area with any accessible property until boarding the aircraft. This requirement applies to all air travel (business or leisure) unless exempt by federal regulation.

Remember, Security is Everyone’s Business!

The Department of Aviation’s Security division is responsible for managing an effective Airport Security Program that ensures a safe and secure environment at the world’s busiest and most efficient airport while exceeding customers' expectations and complying with applicable regulations, laws and codes.

If you have questions, please contact the Security Division at SecurityID@atl.com. Thank you for your continued support of the Airport Security Program.
