Prohibited Items

With the holidays upon us, the Department of Aviation (DOA) Security Division would like to take this opportunity to remind airport employees that alcoholic beverages are not allowed to be brought onto the worksite or in any secure, sterile or otherwise restricted areas. This includes unopened items that are being brought onto airport property as gifts for co-workers. Alcohol is a prohibited item, and if brought onsite will be confiscated and destroyed.

Contact a member of the DOA Security Team if there are any questions or concerns.

Remember, Security is Everybody’s Business!
