

Security Awareness

Monthly Focus

Volume 8, Quarter 1, Issue 2

August 2020

Practice the 3 W's While at Work

1. **Wear a face mask.** Avoid touching the face mask while using it. If you do, wash your hands. *Note: If you reuse your face mask, wear gloves when inspecting and putting it on. Avoid touching any part of your face—including your eyes, nose, and mouth—during the process.*
2. **Wait in line.** COVID-19 spreads mainly among people who are in close contact (within about 6 feet) for a prolonged period. Practice social distancing by staying at least 6 feet away from an individual. Spread happens when an infected person coughs, sneezes, or talks, and droplets from their mouth or nose are launched into the air and land in the mouths or noses of others.
3. **Wash your hands.** Do this with warm running water. Keep fingers pointing downward. Rub hands vigorously for 30 seconds. Wash all surfaces: back of hands, wrists, between fingers, tips of fingers, and under fingernails. Dry thoroughly with paper or clean cloth towel.

Remember, Safety & Security is Everybody's Business!

The Department of Aviation's Safety & Security Division is responsible for managing an effective Airport Security Program that ensures a safe and secure environment at the world's busiest and most efficient airport while exceeding customers' expectations and complying with applicable regulations, laws and codes.

If you have questions, please contact the Safety & Security Division at SecurityID@atl.com. Thank you for your continued support of the Airport Security Program.
