COVID-19 Pandemic

For certain information relating to the novel coronavirus disease ("COVID-19") pandemic during the fiscal year ended June 30, 2021, see the 2021 Department of Aviation ACFR.

Information regarding the COVID-19 pandemic and its effects evolves on a weekly basis, rendering predictions difficult to make with any reasonable degree of certainty. Due to the evolving nature of the COVID-19 pandemic, including variants of COVID-19 and the acceptance and effectiveness of COVID-19 vaccines, and the responses of governments, businesses, and individuals to the COVID-19 pandemic, the City cannot predict, among other things: (a) the scope, duration or extent of the COVID-19 pandemic or any other outbreak or pandemic on: (i) the existing restrictions and warnings or any additional restrictions and warnings which may be imposed by local, state or federal governments, nor the timing of the relaxation or release of such restrictions and (ii) any additional short- or long-term effects the restrictions and warnings imposed by local, state or federal governments may have on the operations of the Airport and the revenues and expenditures of the Department of Aviation; (b) the scope, duration or extent of the COVID-19 pandemic or any other outbreak or pandemic on the local, the State, national or global economy or the impact of such disruption on the operations of the Airport and the revenues and expenditures of the Department of Aviation; or (c) whether any of the foregoing may have a material adverse effect on the operations of the Airport and the revenues and expenditures of the Department of Aviation (collectively, the "Risk Factors"). Accordingly, the full impact of the COVID-19 pandemic on the Airport and the Department of Aviation cannot be fully quantified at this time and the information in the 2021 Annual Filing may not be indicative of future results or performance due to the Risk Factors and other factors.
