

COVID-19 PROTOCOLS for the Mayor's 5K on the 5th Runway event:

I understand and agree that I will adhere to the following COVID-19 protocols that may be required by the City of Atlanta (the "City") and the Hartsfield-Jackson Atlanta International Airport ("Airport"), and any applicable state or federal requirements so they can host a COVID-19 safe 2022 Mayor's 5K on the 5th Runway (the "Race") on Saturday, October 14, 2023.

1. Anyone exhibiting signs of COVID-19 such as feeling sick, recently testing positive for COVID-19 and/or being exposed to anyone showing signs or recently testing positive for COVID-19 will not be allowed to participate in the Race.
2. At the present time, wearing a face mask is optional. The Race reserves the right to require face masks if health protocols at the Airport change. Face masks are not required while running/walking the 5K route.
3. Participants are encouraged to use their own judgment regarding social distancing when around people not in their social circle. The Race may start in waves with a start grid to promote social distancing if necessary.
4. Race participants are encouraged to sanitize their hands often throughout the event.
5. Participants are encouraged to leave the Race site shortly after the conclusion of the Race.
6. Individuals with compromised immune systems, individuals meeting other vulnerable criteria, and anyone responsible for the care of someone in the at-risk population should possibly consider this event a risky environment. We recommend these individuals participate as a "Virtual Runner."
7. Any or all of these protocols may be adjusted if the health environment on Race day indicates changes are necessary.
