August 2023

Access Level Restrictions

The DOA Safety & Security Team have recently conducted access level audits and will be communicating changes that will affect employee access points in the Domestic and International Terminals, as well as access points around the airport perimeter.

Employees who no longer have access to specific access points will be directed to use an Employee Screening Checkpoint. These changes will start to go into effect over the next few weeks. Signage has already been posted at several access points that are currently under review.

Let's all remember that the safety and security of all staff and passengers is our goal. Your understanding and cooperation are greatly appreciated.

Thank you for your continued support of the Airport Security Program.

Remember, Security is Everyone's Business

The Department of Aviation's Safety & Security Division is responsible for managing an effective Airport Security Program that ensures a safe and secure environment at the world's busiest and most efficient airport while exceeding customers' expectations and complying with applicable regulations, laws and codes.

If you have questions, please contact the Safety & Security Division at SecurityID@atl.com. Thank you for your continued support of the Airport Security Program.
